about us!

What is Early Intervention Support?

Many young people lack funding for Alternative Provision but require diverse learning pathways. Storyy Group supports local schools with early intervention, creating personalised educational plans.

Our specialist mentors identify issues early, preventing educational crisis. They gather insights from young individuals, uncovering concerns that might not readily be disclosed to traditional professionals.

We address:

- Verbal & Physical Aggression
- Poor attendance
- Gang affiliation
- Hidden traumas
- Home problems
- SEN needs

With this in mind, we're offering your school complimentary early intervention support:

- Four 30-minute tailored sessions at your school
- Custom insights and support strategies
- Seamless integration with your educational efforts

This service is **free**, reflecting our commitment to local educators, such as your school.

For more information or to **book your free sessions**, please contact our Partnerships Manager, Kurt:
